

BALE EARLIER, LATER OR LONGER

Bale earlier, later or longer with the help of a hay preservative application system from Harvest Tec. By using a hay preservative system, you can bale at moisture up to 30% and be assured of consistent quality throughout the entire bale.

From now through March 15, 2020, receive a **FREE 50-gallon drum of Balers Choice buffered hay preservative** (a \$630 retail value) with the purchase of a 300 Series Automatic Applicator hay preservative application system from Harvest Tec through your local Vermeer dealer.

Promotion valid only on Harvest Tec 300 Series Automatic Applicators purchased through participating Vermeer dealers until March 15, 2020.
