

# Star Wheel Product Improvement

*The 030-4641 star wheel assembly has been updated for improved reliability and ease of installation. The assembly transitions from a four-bolt block to a two-bolt block. Some installations will require additional filler plate.*

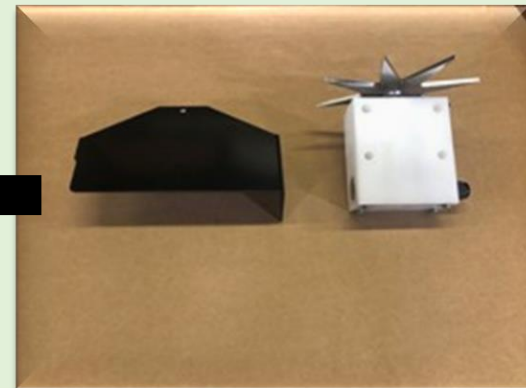

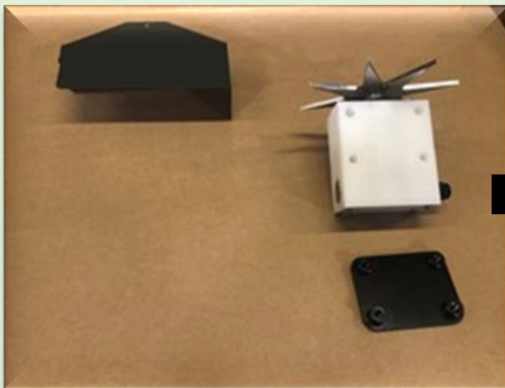

**Large Square Baler Models Impacted:**

- AGCO/Massey/Challenger 21/2200 Series

Setups with GREY twine diverter will use black 2 hole filler plate with new style star wheels.

New two-bolt block Star  
Wheels  
030-4641

Setups with BLACK twine diverter will NOT use 2 hole black filler plate with new style star wheels.

Note – remove 4 bolt plate from baler
