Spare Parts Kit

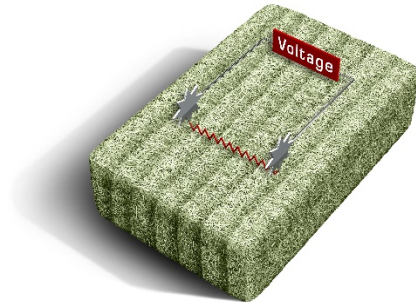

Dual Star Wheels for Large & Small Square Balers

Harvest Tec is excited to introduce rebuild kits designed for dual star wheel automatic applicators and moisture only systems. These kits provide essential spare parts and components to ensure superior moisture accuracy allowing your system continuous operation in the field.

Dual star wheel rebuild kits are designed to be compatible with 700 series and new style star wheel assemblies on large and small square applicators, ensuring maintenance is as easy as possible while extending the lifespan of your equipment. Each kit includes basic parts including washers, bearings, swivels, and gaskets, reducing downtime, and maintaining peak performance.

Dual star wheel rebuild kits will:

- Ensure accurate and reliable moisture readings
- Reduce unexpected maintenance issues
- Extend the life of your applicator system

2 kits options conveniently packaged and labelled for your Dual Star Wheel system:

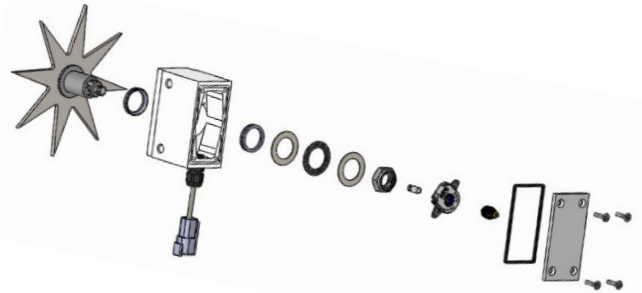

SPK-4642UE – 2 BOLT STAR WHEEL SPARE PARTS KIT (with encoder). Recommended for all 700 series moisture only and automatic applicators on Large Square & Small Square Balers.

SPK-4642U – 2 BOLT STAR WHEEL SPARE PARTS KIT (non-encoder). Recommended for all H2O kits and 3/4/5/600 series moisture only and automatic applicators on Large Square & Small Square Balers.

See page 2 for components found in each kit
