HayBoss Tank Mounting Kit

For operators running 1835-1842S small square balers, Harvest Tec has designed a new mounting location for the hay preservative tank!

The new mounting location for the 55 gallon preservative tank is conveniently located on the side of the baler instead of the top of the bale chute. This provides the operator a clear line of sight behind the baler to view the bales in the field or additional implements in use!

The side mounting kit can be included as part of a new preservative applicator system for the baler, or as an update to a baler with the preservative system already mounted.

Available in either the Electronic Applicator for simple, easy application, or the HayBoss Automatic Applicator that allows customers to monitor moisture and apply hay preservative automatically and accurately on their hay crop.

1835-1842S Small Square Baler Applicators (Tank Mount Top of Bale Chamber)		
Part Number	Product	Requirements
HT7444416C	700 Series Hayboss Automatic Applicator	*Requires iPad, Android tablet, Harvest Tec monitor, or ISO baler monitor as display
HT4344416	Electronic Applicator	

1835-1842 Small Square Baler Applicators (Tank Mount RH Side of Bale Chamber)		
Part Number	Product	Requirements
HT7444417C	700 Series Hayboss Automatic Applicator	*Requires iPad, Android tablet, Harvest Tec monitor, or ISO baler monitor as display
HT4344417	Electronic Applicator	

1842S Small Square Baler Applicators (Tank Mount RH Side of Bale Chamber)		
Part Number	Product	Requirements
HT7444418C	700 Series Hayboss Automatic Applicator	*Requires iPad, Android tablet, Harvest Tec monitor, or ISO baler monitor as display
HT4344418	Electronic Applicator	

Upgrade from Top Chute Tank Mount Location		
Part Number	Product	Requirements
H30-434SSM	Side Saddle Mount Kit	Brackets only – 55 gal tank and metal straps are reused
